

Spellings at Green Lea First School

At Green Lea First School, we explicitly teach Spelling in Key Stage One and Two through Spelling Shed. It makes the acquisition of spelling and word knowledge fun and engaging for pupils. Spelling Shed aligns with the English National Curriculum and it is fully editable.

Spelling Shed includes a complete, printable scheme of work organised into 36 weekly word lists for each year group, embedding logical progression and review. Weekly, printable lesson plans, teaching slides and worksheets aid the delivery of the spelling, grammar and punctuation objectives. Full data tracking allows teachers to see at a glance how often children are practising and view their progress and attainment. The complete curriculum resource allows the teaching and practising of spellings in class, remotely or used as a hybrid teaching and learning solution.
