KS1. Cycle 1. Science: Plants. Biology

Key Vocabulary

| | |
|----------------------|---|
| Plant | Something that has grown in the ground. |
| Roots | Roots take in water and nutrients from the soil and keep the plant in the ground. |
| Stem | The stem holds the plant up and carries the water and nutrients from the roots to the leaves and flowers. |
| Leaves | Leaves catch sunlight to help the plant make its own food. |
| Flowers | Flowers attract insects and birds. |
| Seeds | Seeds grow into new plants. |
| Soil | The earth that the plant grows out of. |
| Nutrients | Food that the plant needs to grow. |
| Water Transportation | How the water gets from the roots to the leaves. |
