Top Tips

The secret to success? Practise little and often! Can you learn these on your way to school? On a car journey? Or even at the breakfast table? You don't need to learn them all at once: start with those you are more confident with before tackling the rest. Why not practise whilst keeping active? You could throw and catch or kick a ball whilst learning them!

Play games!

- Make some cards with the answer and question. Use these to play the memory game or snap.
- Create a board game or a treasure hunt related to find the answer
- Make some flashcards and ask a family member to test you!
