Top Tips

The secret to success? Practise little and often! Can you learn these on your way to school? On a car journey? Or even at the breakfast table? You don't need to learn them all at once: start with those you are more confident with before tackling the rest. Why not practise whilst keeping active? You could throw and catch or kick a ball whilst learning them!

Play games!

- Make some cards with the answer and question. Use these to play the memory game or snap.
- Create a board game or a treasure hunt related to find the answer
- Make some flashcards and ask a family member to test you!

$9 \times 9 = 81$	45	9	$1 \times 9 = 9$
$10 \times 9 = 90$	54	18	$2 \times 9 = 18$
$11 \times 9 = 99$	63	27	$3 \times 9 = 27$
